Subject: **Brainiacs Clubhouse CDC**
11433 Beaconsfield St. Detroit, MI 48224

Dear Detroit Health Department:

Brainiacs Clubhouse acknowledges elevated water test results in the kitchen faucet.

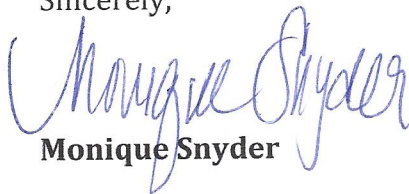

Our immediate plan to minimize the lead exposure is to:

1. Use 100% bottled water for the next 6 weeks
2. Flush the Pipes

Our permanent remedy to eliminate the high levels of lead is to:

1. Replace the Sink Faucet by Aug. 30, 2016
2. Install point of service devices that control lead at the tap by Aug. 30, 2016

Sincerely,

Monique Snyder
